MESSAGE FROM THE PRINCIPAL

We all thoroughly enjoyed our birthday celebrations last week. A big thank you to those people who were able to join us. Our 50th birthday artwork looks amazing, and it was great to be able to unveil it. It was wonderful to work with NT artist, Janie Andrews. Many of our staff and students participated in the production of this work. I even got to share our birthday story on the radio on Monday morning. I hope you all enjoyed both our concert and assembly. Our concert was written by Ms Edeson and some of our Yr 6 students. The lighting situation was unfortunate, and we are following up with the company we employed to provide the lighting and sound.

REMINDER

Phone the school office if your child is absent from school.

Today is the last school day for our students this semester. Tomorrow our teachers will be participating in professional learning. Ms Rachel will be on leave next semester to go travelling with her family. We wish her well and look forward to hearing about her travels. She will be back at Wagaman in 2024. We are still working to recruit a teacher for our Preschool and will let families know when we have successfully appointed someone. Ms Vavlas will be on long service leave for the first four weeks next term. We are also currently finalising staffing for her class in her absence.

Our whole school attendance has continued to be 89% for the year to date. We have 6 classes with attendance of 90% or more for the year so far.

Recently, we have had discussions with some of our older students regarding social media and cybersafety. They have also participated in class learning activities about cybersafety. It is a timely reminder for families to ensure they are aware what children are doing when online. One of the things we have spoken to our older students about is ensuring they are respectful and kind when online. There are great resources available on the eSafety Commissioner website.

Wishing everyone a safe and enjoyable holiday break. I look forward to seeing everyone back at school on Tuesday 18th July.

Kind Regards
Mandy McKinnon

IDEAS IN NUTRITION

Taste and Try

We know that the more chances children have to see and experience vegetables the more comfortable they will feel eating them.

Did you know it can take more than 10 times for a child to be experience a new food before they are likely to eat it? The first steps might not even be eating the food. They may want to just watch a parent eat it first, or just touch the food.

We want to encourage parents to keep on offering fruits and vegetables. You might feel like you need to waste the vegetables if your child doesn't eat it. We suggest you pack it away in the fridge for later, or eat it yourself!

Maybe there are other ways your child could experience a vegetable, other than eating them? Like gardening, shopping, cooking or presenting.
